FRIDAY EVENING, MAY 6.

NOT A BREACH OF PRIVILEGE,-In the British House of Commons yesterday afternoon consideration of the question of breach of privilege in the London Times Dillon case was resumed. No member rising to speak on the motion of Mr. Lewis, that the conduct of the Times was a breach of privilege, and that the House take notice of it, Speakcation as a breach of privilege. The Parnellites at once challenged a division. This resulted in a vote of 297 in favor of the amendment to 219 against it. er Peel put before the House the amendment amendment to 219 against it. The amendment thus became a substantial motion. Mr. Gladstone, who on rising was loudly cheered, moved an amendment that a committee be appointed to inquire into the charge of willful falsehood made against Mr. Dillion in the Times on Monday. He said be did not intend to suggest that the inquiry go beyond the article referred to. He objected to Lord Randolph Churchill's calling him the leader of the party of separation. He perfectly understood why Lord Randolph did not call it the party of home rule. There was a future before Lord Randolph in which home rule plans might figure as convenient to propose. Turning to the question of privilege, he said it was unfortunate that the government proposed the present step against an Irish member while inflicting upon the Irish people by means of a permanent coercion bill, a brand of perpetual dishonor. He continued his argument in favor of a tribunal of the House helding that Dillon would be in an unforced. holding that Dillon would be in an unfavorable position before a jury. He cited a number of precedents to sustain the position taken by him. Sir Richard Webster admitted that Gladstone had stated the case in the clearest way, but the opinion of the law officers of the government was unshaken. Precedents do not disclose a case parallel to

The patient is given a pound of grapes to eat the first day. This amount is added to until the person can eat five or six pounds a day. It cures obesity and many other complaints, and starts the person off on a new lease of life. Fruit is necessary in dietetic medicine.

"Work, Work. Work!"

How many women there are working to day in various branches of industry—to say nothing of the thousands of patient house wives whose lives are an unceasing round of toil-who are martyrs to those complaints to which the weaker sex is liable. Their tasks are rendered doubly hard and irk-some and their lives shortened, yet hard necessity compels them to keep on. To such Dr. Pierce's "Favorite Prescription" offers a sure means of relief. For all female weaknesses it is a certain cure. All drug-

Alexandria Gazette.

The GAZETTE is now the oldest paper in the State, and with few exceptions the old est in the country, and its usefulness had been demonstrated and appreciated during the EIGHTY-SEVEN YEARS of its existence. In its columns has always been found a mirror of passing events, and the careful chroni cling of the history of what is going on in the world has ever been its aim. It is always welcomed in the household, while in the

counting room and workshop it has become invaluable. The GAZETTE has better facilities for obtaining news than any paper outside of the national capital. Situated as it is so close to the great centre of news, it enjoys daily the benefit of the Associated Press dispatches from every part of the world; hence its patrons can read from its columns in the evening what has transpired that day in every portion of our own domain as well as from every part of the habitable globe Consequently it is an every day occurrence for the GAZETTE to publish telegrams from the various European capitals twelve and fifteen hours earlier than the morning pa-

The local department furnishes a full and complete history of everything that occurs in and near the city, and this feature will. as ever, receive careful attention.

Correspondence from Washington, Rich mond and every section of the State, is published regularly, and all events of interest occurring within the bounds of the Commonwealth are to be found in the columns of the GAZETTE.

The GAZETTE's circulation is steadily in creasing, especially among people who consult its advertising columns before purchasing. That this is self-evident may be inferred from the fact that a large country edition-nearly as large as the daily-is sent all over this section of country three times a week, and is read by thousands, most of whom send here or to contiguous cities to make purchases. The advantages of advertising in the GAZETTE are, therefore, ap-
